

CALITERRA®

CALIDAD DE NUESTRA TIERRA

History

Caliterra is a fusion of quality “calidad” and land “tierra”, of a passionate friendship with the environment, sustainable viticulture philosophy, Chilean roots and Colchagua traditions. Our wines celebrate our land, our people and our pure nature for the future generations.

Caliterra was established in 1996 as a partnership between the Robert G. Mondavi family and Viña Errázuriz, who sought to realize their shared dream of producing high quality wines that reflect the potential of the Chilean nature, terroir and fruit.

Caliterra represents a passion for quality that aims to create environmentally friendly wines that are young, modern and innovative, wines that express Chile’s outstanding potential as a producer of natural high quality wines. The Colchagua Valley was chosen as the home of Caliterra Estate. Located in the heart of the valley, the estate of approximately 1,085 ha (2,681 acres) has 75% of untouched natural land and Mediterranean climate, where cool nights and gentle breezes temper the sun’s energy creating perfectly ripe, intense, concentrated and balanced wines.

In early 2004 the Viña Errázuriz acquired the Robert Mondavi family’s 50% share in Caliterra, with the goal to craft premium environmentally friendly wines from one of the world’s most important winegrowing regions.
