Exceptional Recognitions from Robert Parker to Caliterra wines

Caliterra wines were rated with outstanding scores, at the third version of the Chilean Wines Revision made by the worldwide famous American wine taster Robert Parker, creator of The Wine Advocate Magazine.

One of the best Chilean scores, 93 points, was given to the 2006 vintage of Cenit, the icon's second harvest; exceeding by far the 91 points obtained in its first vintage, 2005. Parker mentioned, "Caliterra's flagship wine is the 2006 Cenit, a blend of 53% Cabernet Sauvignon, 27% Malbec, and 20% Petit Verdot (a variety playing an increasingly important role in Chile's red blends). Cenit spent 18 months in 100% new French oak. Opaque purple-colored and thick in appearance, it has a classy perfume of violets, scorched earth, pencil lead, blackcurrant, and blackberry. Lush, dense, and structured on the palate, it will benefit from 3-5 years of cellaring"

The 2007 vintage of the Caliterra Tributo Edición Limitada series also stood out from the Chilean category by receiving high ratings. The innovative and unique limited edition blends Shiraz/Cabernet Sauvignon/Viognier, Carménère/Malbec and the exclusive Natural Ferment Chardonnay obtained 91, 90 and 90 points respectively, attracting the attention of the tasting team, due to the originality of the blends, the distinctive fermentation process and the exceptional quality of the wines.

“We are proud to see how the work in harmony with the environment and the application of sustainable viticulture develops into better wines vintage after vintage, which obtain higher recognitions year after year. The exceptional reviews Parker has given our wines emphasizes Caliterra as a quality reference among Chilean premium wine producers”, comments Sergio Cuadra, Caliterra’s chief winemaker.

Carménère 2007

Robert Parker’s 90 points obtained by Caliterra’s Tributo Carménère 2007 is another accolade that demonstrates the outstanding quality that Carménère grown at the Caliterra Vineyards in the Colchagua Valley has. This recognition reinforces the award obtained at the Carménère al Mundo Contest (Carménère to the World), in which Caliterra Reserva Carménère 2007 was chosen as Chile’s Best Carménère blend, award organized by the Chilean National Association of Agronomist Engineers and Winemakers.

The exceptional recognitions given by Parker to Caliterra wines reflect the great quality improvements the wines have demonstrated by working in an environmentally friendly manner, applying sustainable practices at the vineyard itself, continuing with the vinification process, until reaching consumers all over the world.
